CALGreen

The California Green Building Code (CALGreen) requires 65 percent of diversion of waste from construction and demolition projects. CALGreen applies to the following:

- All **new construction** of a building regardless of project value.
- Additions to non-residential buildings or structures of at least 1,000 square feet or alterations with an estimated construction cost of at least $200,000.

If you have a construction or demolition project, please check with your jurisdiction to find out about their Construction and Demolition Recycling Program.

C&D Materials

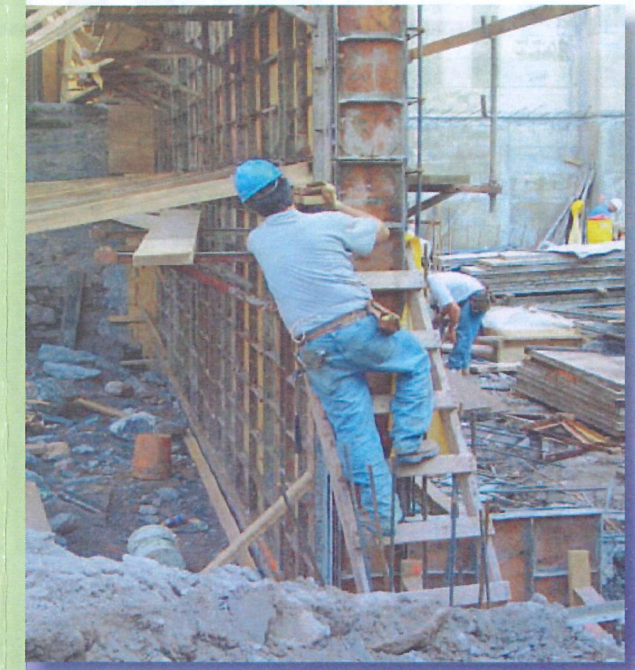

- Asphalt
- Concrete
- Dirt
- Rock
- Drywall
- Metals
- Wood
- Brick
- Tile
- Stucco
- Plastics
- Carpet Padding
- Carpet Foam
- Yard Trimmings
- Roofing Material

Reuse and recycling of C&D materials is one component of a larger holistic practice called sustainable or green building construction. The efficient use of resources is a fundamental tenet of green building construction. This means reducing, reusing, and recycling most if not all materials that remain after a construction or renovation project.

MID VALLEY DISPOSAL

LOCATION•
15300 W Jensen Ave
Kerman, CA 93630
HOURS•
Monday-Friday

MID VALLEY DISPOSAL
RECYCLING & TRANSFER STATION

2 EASY OPTIONS
to Dispose of Construction & Demolition Debris

1 Roll-off Containers

Mid Valley Disposal offers 20, 30, 40 and 50 yard roll-off bins serving the Fresno, Madera, Tulare and Kings County areas to collect construction and demolition material (e.g. wood, concrete, and roofing material) from contractors & homeowners. Mid Valley Disposal provides fast & reliable roll-off services at your convenience.

2 Recycling & Transfer Station Self-Haul

You may transport your C&D materials generated during a business or residential construction or demolition project to Mid Valley Disposal's Recycling & Transfer Station. Mid Valley Disposal has state of the art sorting equipment to process and recycle your C&D material.

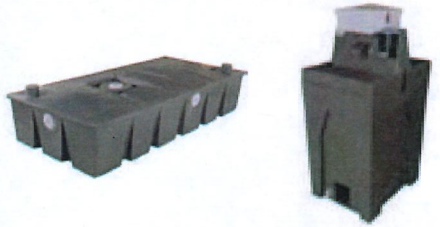

Mid Valley Disposal's Recycling Outreach Specialists are at your service by tracking all weight tickets for all C&D loads from roll-off bins and self-hauls. Once C&D projects have been completed, please inform our Outreach Specialist. The Outreach Specialist will then provide you with an estimated diversion rate for each C&D load hauled to our facility. The diversion rate percentage is required on your C&D application to receive final inspection or a certificate of occupancy by the City Building Department.

Portable Toilets

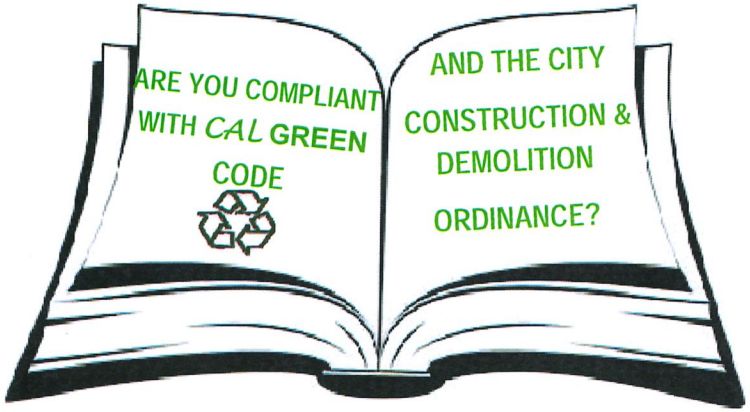

Crown Services Co. provides the latest state of the art, industrial grade portable toilets and customized solution systems suited for construction sites throughout the Central Valley. For additional information, please contact us at 559.442.0845.

For sample offerings of our portable construction units and systems, please visit, www.crownservices.com/construction

CONSTRUCTION AND DEMOLITION

C&D MATERIAL TO BE RECYCLED

- Asphalt and Concrete
- Cardboard
- Clean fill dirt
- Green Waste/Organics
- Wood Waste
- Pallets
- Wallboard/Gypsum/sheetrock
- Metal

Are using a roll-off?

You may be required to use the exclusive franchise hauler's roll off service in the City. Please make sure to ask the City or County Building and Planning Department how to comply with their ordinance. Mid Valley Disposal (MVD) will track your recycling diversion for each permit/project with MVD Roll Off Services.

Do you have sub haulers used during your project?

If you have sub haulers removing waste from your C&D project, you are required to turn in weight tickets from facility materials were disposed of. For concrete you will need to report an estimated weight of concrete hauled to a facility. This is very important to meet your 65% diversion requirement under Cal Green Code.

Where do I self haul my C&D waste?

Each C&D project is required to meet a 65% recycling diversion rate. In order to meet this goal, materials should be sent to a facility that will sort and separate the waste from materials that can be recycled. Green Waste should be hauled to a compost facility and concrete to a recycling facility.

If you have any questions regarding how to comply with Cal Green Code, please contact City's Building and Planning Department and/or Mid Valley Disposal at 559.567.0520.
